

2. 2. Identify things the instructor did that were most helpful to you:

Text Response
Emailed back to me, when I emailed questions.
provide the links that I can open in China
Kept in contact with students.
The variable video
Replied to my emails super quickly
Responding quickly to discussion questions and commenting on essays.
Providing the answers to all assignments. It helped me understand the questions i was incorrect on. It helps also because if you grade for accuracy but you get one wrong and don't show the answers the students don't learn from their mistakes.
He was able to provide constructive criticism and interesting videos that were relevant to the material.
Feedback from essays and involvement in discussions.

3. 3. Identify things the instructor did that were least helpful to you:

Text Response
N/A
none
Nothing.
answer of quizzes and exams
the tests were hard
Providing a few test questions that were vague and hard to understand.
Nothing.
Some of the videos that he made were slightly confusing and different than what the book said.
Testing style.

4. 4. Identify suggestions for improvement:

Text Response
N/A
Thanks for your class!
Nothing.
open the report of quizzes and exams so students can check answer
maybe help with test prep or something
Allow students to review tests and quizzes to see which answers they got correct or incorrect.
Nothing, Professor Runst did a great job!
Have more cohesion between the book and videos.
More questions based on calculations and less on definitions of terms or classification.
